

FIRE GRIP

B0901

The best fire fighting glove in Scandinavia and Europe.

Fire Grip is the most technically advanced leather glove characterised by outstanding mechanical and thermal protection levels. The gloves consist of extraordinary material composition to keep excellent sensitivity and protection at the same time. Water resistant breathable membrane makes a barrier against bacteria, blood and chemicals. Ergonomic design both in shell and liner with reinforcements in knuckles and palm part for best protection performance. Because of max tear resistance gloves can be a hazard if there is a possibility they could snag into moving parts and put the user in danger. All components and manufacturing - EU.
